

Hygiene columns Mano Tower

Hand and surface disinfection in one unit

The Mano Tower hygiene columns are suitable for food wholesale and retail trade, as well as for all business areas where shopping trolleys are used. Employees, customers, guests and visitors must be protected from viruses, bacteria or unwanted germs as much as possible. The Mano Tower hygiene columns were specially developed for this purpose. They reduce personnel costs and offer customers a simple and ergonomic operation.

The columns are equipped with a dispenser for hand disinfectant, a dispenser for disinfectant wipes and a waste paper basket for direct and quick disposal of used wipes.

The columns are available in two versions, with an automatic hand disinfectant dispenser or a manual arm lever dispenser.

The automatic version can optionally be equipped with an 11,6" screen. It offers additional advertising space that can be used for current offers or information.

Version with manual disinfection

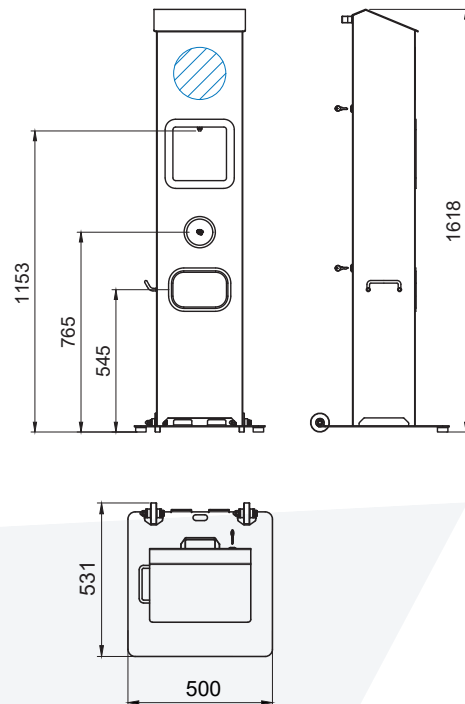

Version with automatic disinfection

Version with automatic disinfection and display
