

## Mano Complete type 23765 / 23775

Example sluis

# Contactless activation of all hygiene processes

Controlled hand hygiene at the production entrance, especially for hygienically sensitive areas, is guaranteed completely in one unit by combining hand cleaning in connection with fully automatic soap dispensing, paperless hand drying and subsequent disinfection.

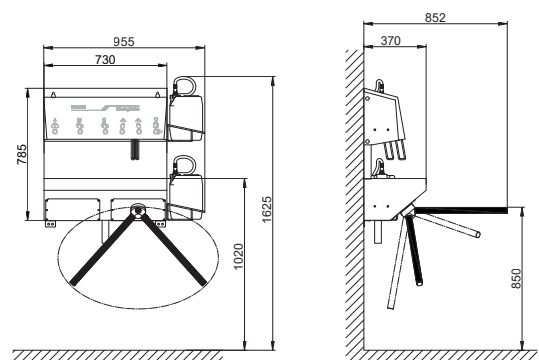

### Compact solution

- Controlled process flow
- Hand cleaning, 2 versions:
  - Type 23765 with water/soap mixture
  - Type 23775 with water/soap separated
- Contactless activation of each step
- Every step is visualized by a LED symbol light
- Hand drying with high performance hot air blower, optional with V8 filter
- Access release by motor-driven turnstile or via a potential-free contact on portal turnstiles or doors etc.
- Option to connect time recording systems, signal horns, etc.
- Card readers or personnel counters can be integrated into the process
- Combinable with the ITEC Star Clean IV series for sole cleaning and disinfection
- Left- and right-hand version available, with or without turnstile
- Personnel frequency: 4-5 people/minute

### Technical data

Type	23765 / 23775
Connection to the network	230V / N / PE
Network frequency	50-60 Hz
Rated power	1.9 kW
Voltage	24V DC
Protective device	IP65
Water supply	KW $\frac{1}{2}$ " , WW $\frac{1}{2}$ "
Drain	DN 40

Technical data may be subject to changes
