

Ensure **hygiene and safety standards** in your production.

Order the right spare parts kits directly with your equipment at the best possible price.

FIRST SUPPLY SET FOR:

Cleaning basin type 20550 and 20520

Sensor, solenoid valve, circuit board, thermostatic mixing valve and perlator included.

Cleaning trough type 20555, 20550 and 20520

Sensor, solenoid valve, circuit board, thermostatic mixing valve and 2x perlator included.

Inlet Control type 23740

Light sensor, membrane pump, double nipple, nozzle, level switch and non-returnvalve for suction lance included.

Inlet Complete type 23761/23771

Light sensor, membrane pump, perlator, double nipple and nozzle, level switch and non-return valve for suction lance, light sensors, solenoid valve included.

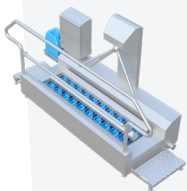

SoloTraditio type 23821

Circuit board, membrane pump, light sensor, solenoid valve, intake fitting, coupling screw and driving shaft included.

Traditio Complete type 23822

Circuit board, membrane pump, perlator, light sensor, solenoid valve, intake fitting, coupling screw, driving shaft and thermostatic mixing valve included.

Modular hygiene station Star Clean type 23881

Circuit board, membrane pump, light sensor, intake fitting and solenoid valve included.
