

Virisol - Hand sanitizer

Antiseptic for healthy skin. Hydroalcoholic solution for hygienic and pre-surgery hand sanitizing.

Specifications microbiological efficacy

- Hand sanitizer
- Hydroalcoholic solution for direct application to hands, with no need for water or rinsing
- Antiseptic product for personnel in all sectors, including health and the food industry
- Contains alcohol as active ingredient
- Enriched with high quality skin protecting ingredients
- For hygienic and pre-surgery hand sanitising
- Active against bacteria and fungi
- General virucidal activity
- Non-drip valve

Indications

- For hygienic and pre-surgery hand sanitising
- Product suitable in sanitising protocols for preventing the spread of coronavirus
- Eliminates 99.99% of microorganisms
- Proven efficacy against all types of virus, enveloped and non-enveloped.
- Full virucidal efficacy and human coronavirus 229E in only 30 seconds

Composition

100 g of solution contains	75 g ethanol
	Excipients
	Skin protecting ingredients and moisturizers

Physico-chemical data

Appearance	Transparent light green liquid
Density (20°C)	~0.85g/ml
pH	~6

Authorisations, registrations and certificates

- Registry no. AEMPS 1057-DES
- Sallo Kyra, S.L. Authorisation for the manufacture of disinfectant products for the clinical environment and antiseptics for intact skin. AEMPS authorisation number 0471-DS
- Virisol is manufactured under rigorous quality control, following EU toxicology and environmental standards

Microorganism

Hygienic sanitizing for medical use

(Escherichia coli K12)

Test	EN 1500 (2/2)
Time	30 seconds

Bactericidal activity

(Pseudomonas aeruginosa, Escherichia coli K12, Staphylococcus aureus and Enterococcus hirae)

Test	EN 13727 (2/1)
Time	30 seconds

Surgical bactericidal activity

(Pseudomonas aeruginosa, Escherichia coli K12, Staphylococcus aureus and Enterococcus hirae)

Test	EN 13727 (2/1)
Time	1 minute

Surgical yeasticidal/fungicidal activity

(Candida albicans)

Test EN 13624 (2/1)

Time 30 seconds

Yeasticidal – fungicidal activity

(Candida albicans)

Test EN 13624 (2/1)

Time 30 seconds

Virucidal activity (non-enveloped virus)

(Poliovirus type 1, Adenovirus type 5, Murine Norovirus)

Test EN 14476 (2/1)

Time 30 seconds

Human coronavirus 229E (enveloped virus)

Test EN 14476 (2/1)

Time 30 seconds

Mycobactericidal – Tuberculocidal activity

(Mycobacterium avium and Mycobacterium terrae)

Test EN 14348 (2/1)

Time 30 seconds

Dosage and directions

- Hygienic hand antisepsis: UNE-EN 1500
Apply a 3-ml dose of undiluted Virisol and rub hands for 30 seconds. Allow to dry until totally evaporated
- Surgical hand antisepsis: UNE-EN 13727, UNE-EN13624
Apply a 3-ml dose of undiluted Virisol and rub hands and forearms for 1 minute. Repeat 3 times ensuring hands remain damp throughout

Storage

- Keep away from heat and sunlight
- Keep out of the reach of children
- Flammable
- Keep away from sources of ignition
- Expiry date: 3 years
- For SK-IPS dispensers
- Enter body
