

Cleaning basin and troughs type 20550 W Touchless

Hand hygiene – contactless – comfortable – compact

Now completely touchless and moisture-resistant

The No. 1 series of cleaning basins and troughs Type 20550. The new touchless version offers all known advantages including touchless removal of soap and disinfectant. The completely touchless cleaning process leads to significantly shorter lead times. Adjustable dosing quantities guarantee optimum hand hygiene with minimum consumption. Safe functionality is also guaranteed in production facilities with high levels of moisture development.

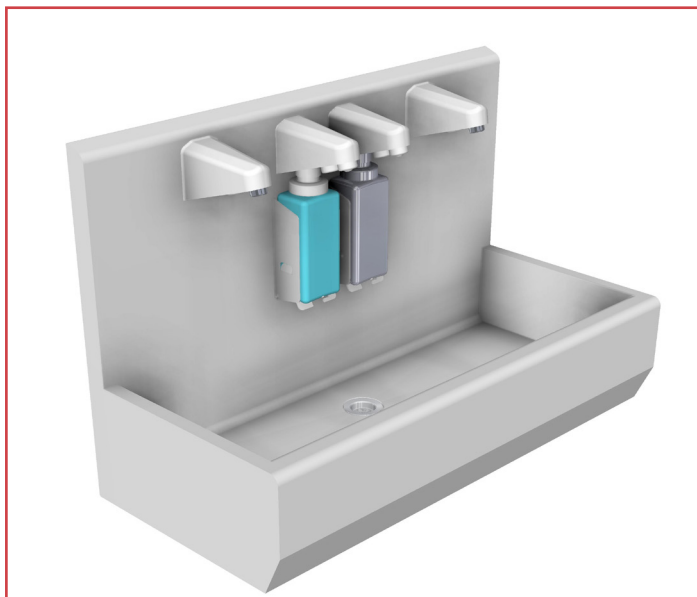

Options

- Lockable execution
- Wall mounting or pedestal
- Connections from the ceiling
- Paper towel dispenser with holder and wastebasket
- Warm air hand dryer
- Available with a maximum of 6 wash places
- Continuous flow heater

Version

- Stainless steel fittings for touch-free sensor-controlled soap removal, water activation and disinfectant removal
- Holder for 1L reservoir
- Drawn basin body with rear wall completely made of stainless steel material no. 1.4301. Finely ground surfaces
- Integrated Aquaflow function (hygiene flushing) prevents contamination in the pipeline system
- Reduced water consumption due to sensor operation and water-saving aerator
- Water follow-up time of one second reduces switching operations of the sensor and extends the life span of the technical components
- If the sensor is damaged or intentionally covered, the water will run for a maximum of 30 seconds
- Robust construction suitable for industrial use, high IP protection
- Hygienic construction - easy to clean

Cleaning troughs type 20550-2W Touchless

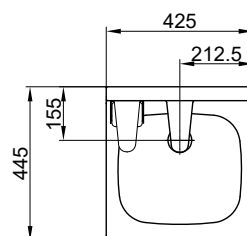

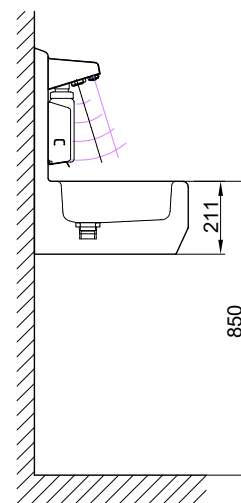

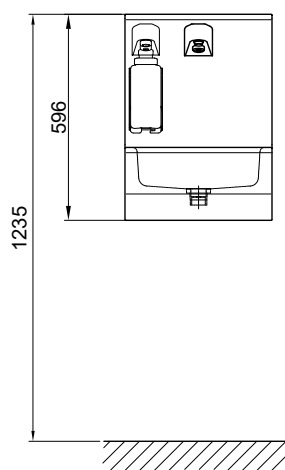

Reinigungsbecken Typ 20550 W Touchless

Technical data

Type	20550 1W - 6W Touchless
Faucet	Stainless steel version with integrated sensor
Drain valve	R 1½"
Thermo-mixing valve	½", continuously adjustable from 35-65°C
Voltage	24V DC
Power supply	230V, 50-60 Hz
Option	Battery control 9V DC

Technical data may be subject to changes
